

## WAREHOUSING AND STORAGE LEVEL 2

### ABOUT THE COURSE

This innovative, multi-device compatible course has been created for those learners currently working, or looking to work, in the logistics sector, in particular within a warehousing environment.

This e-learning course is designed to support the underpinning knowledge of 3 units of the Level 2 Certificate in Warehousing and Storage (not included in the purchase prices provided).

#### These are:

- Health, safety and security at work
- Develop effective working relationships with colleagues in logistics operations
- Keep work areas clean in logistics operations

At the end of each unit, the learner completes an online assessment workbook to evidence the knowledge-based learning for the qualification. The learner is also prepared for a competence assessment, which they must complete to achieve the certificate.

#### Why choose this course?

- · High-quality, multi-generational content written by leading experts
- Media rich and interactive content and style, available across multiple device formats
- 3D scenarios, photography and illustrations, supporting industry standards and effective delivery
- It reduces the requirement for classroom-based learning, thus improving the efficiency of delivery
